

Video posted 1/30/20 by Amazing Word Ministries, “Bill Gates Coronavirus DEPOPULATION. Satan Brought Diseases God is Being Blamed. Climate Guillotine” with Emmanuel Nougaisse speaking. Bill Gates is said to want to kill people to reduce the population. There is a caption around 38:34 that says, “Bill Gates: Vaccines are used for depopulation.”

I don't deny there is Satan and a wicked human agenda behind climate change agitation but...

1. Starting about 38:30 Bill Gates is discussing a vaccine to REDUCE THE DEATH of children from 9,000,000 to about half of that. That is not either a plan to "kill people" nor is reducing the death of children part of a plan to reduce population growth.
2. There is a break in the continuity of the clip and it resumes where Bill says we need to "reduce population growth." He does NOT say the plan is to "kill people" or to reduce the population except by reducing the growth thereof. It is commonly chosen by couples for one to have a vasectomy or a tubal ligation or to use an oral contraceptive. Contraception is an attempt to reduce population growth; is that wrong?

So, whether or not Bill Gates wishes to kill people I don't know. The video clips as shown do not prove he wishes to do that by vaccine or by any other method.
